

What is wrong with you guys? Small business' keep the local money flowing in. I don't even live in Pa, and I'm spending money in this state. The bigger companies raise bills on the smaller compaines to drive them out (Monopolize), you know what, that the competition, that what prevents the big guys from getting lazy. I have severe competition from larger business' but you know what, I strive harder to make people want to come to me instead. Don't allow a monopoly to happen if you can prevent it, it help everyone save money, and gives everyone alittle leeway when it comes to business.
